

HEALTH & SAFETY POLICY

Advanced Facility Care takes Health & Safety seriously and we have put measures in place to ensure that our staff are equip with the correct training and will carry out works in a safe manner at all times.

Our objective is to continually assess risks for each site and ensure that our Health and Safety protocols and procedures are updated, staff continuously receive training, and we regularly schedule toolbox talks with our staff.

Our Policy objectives are:

- ✓ Employees are provided full training and PPE gear prior to starting their role.
- ✓ Scheduling regular toolbox talks with employees.
- ✓ Reporting and recording accidents, incidents, and near-misses.
- ✓ Ensure safe handling and storage of chemicals (i.e. dangerous goods to be labelled and stored properly).
- ✓ Safety Work Methods (SWMS) must be completed by employees prior to undertaking any specialist works.
- ✓ Complying and adhering to all relevant legislations, code of practice, policies and procedures at all times.
